 706, The Forum, 79 Pershore Street, B54RW  (+44)7549916626

I am a passionate individual seeking an innovative and challenging environment. I possess the theoretical knowledge, drive, dedication and practical knowledge to add value to every organisation. I am seeking the opportunity to gain firsthand industry experience in the field of Business and Data Analysis

HIGHER EDUCATION

University of Birmingham, Britain 

Msc Computer Science

September 2018 - September 2019

University of Kent, Britain 

BA Accounting & Finance

August 2015 - May 2018

WORK EXPERIENCE

AMAZON 

Fulfillment Associate

October 2020 - November 2020

- ✓ Reading and deciphering work orders.
- ✓ Locating and extracting merchandise from shelves and storage areas.
- ✓ Confirming merchandise information matches that of the work order.
- ✓ Inspecting the merchandise for damage, flaws, and irregularities.
- ✓ Packing the merchandise for delivery.
- ✓ Finalizing the work order and updating the database.

WEKA 

Business Intelligence Analyst Internship

April 2020 - June 2020

- ✓ Developed advanced analytic tools to provide senior management insight on key performance indicators that will enable strategic business decisions.
- ✓ Carried out SQL analysis and querying to produce effective reporting suites, visualisation and presentation such as Tableau.
- ✓ Analysing and evaluating the current business processes in relation to our solutions and identifying areas of best fit
- ✓ Writing user stories and requirements documents and communicating with all the relevant stakeholders

CRADLE TO CRAYONS CRECHE 

Technical Support Consultant

January 2020 - February 2020

- ✓ Developed, maintained and deployed a Node application responsible for the management of the day-to-day administrative tasks of the school.
- ✓ Proven experience working with business stakeholders to manage and understand user requirements and building a product backlog in building an application for a school management system.
- ✓ Carried out the design of innovative solutions and improvement to the school management system through incremental sprints, that enabled the tracking of the development process of the application.
- ✓ Created numerous automation scripts to aid in ad-hoc business processes.

UNIVERSITY OF BIRMINGHAM 

Teaching Room Assistant

September 2018 - November 2018

This role involved preparing various study locations before the university day began, by making sure the electronic devices had no technical difficulties.
